a. The information disclosure statement filed on 01/03/2008 provided a copy of the listing of references considered by the examiner on 09/24/2007 and did not provide a clean listing of the references for the examiner to consider the references supplied on 01/03/2008 as requested by applicant at page 7. Page 7 stated:

The Applicants' prior counsel had previously filed Information Disclosure Statements (IDS) with the USPTO with the cited non-published documents on compact disc. Applicants' current counsel have provided copies of the non-considered references in paper form and apologizes for the inconvenience. Thus, the Applicants hereby request acknowledgement of the provided references.

Please provide a listing of the 01/03/2008 references applicant wishes the Examiner to consider.

b. The arguments concerning "flexibly coupled" in claim 82 do not clarify the issue that line 2 claims "at least two degrees of freedom", line 5 claims "at least one of said two rotary degrees of freedom", and at line 8 claims "the at least two degrees of freedom. Thus, "flexibly coupled" in the claims is unclear.

c. The arguments concerning "flexibly coupled" in claim 90 do not clarify the issue that line 2 claims "at least two rotary degrees of freedom" and dependent claim 92 claim at lines 2 and 3 flex in a "first dimension". Thus, "flexibly coupled" in the claims is unclear.
